PROFILE

Versatile technology professional combining full-stack web development with certified UAS operations. Three years of experience across front-end development, systems administration, and cloud infrastructure — now flying precision-agriculture drone missions while delivering freelance web and automation projects.

EXPERIENCE

Agricultural Drone Pilot May 2024 – Present
Fumigasa · Ecuador

- Fly precision agricultural spraying missions with DJI Agras T50 and, currently, DJI Agras T100 drones.
- Plan and execute flight missions, including field mapping and route planning.
- Maintain and calibrate UAS and spraying equipment.

Freelance Web Developer & Automation Engineer 2025
Mediacor Plus · Remote

- Designed and built the company website, mediakorplus.com.
- Developed mail-server automations delivering subscription-based updates from the company's media monitoring services.

Systems Administrator Intern Sep 2023 – Feb 2024
European University of the Atlantic · Santander, Spain

- Managed on-site Linux servers and databases.
- Maintained infrastructure and implemented automated testing and deployment with Jenkins.
- Built cloud infrastructure and automated deployments on Google Cloud Platform.
- Containerized developer projects with Docker.

Front-end Web Development Intern Sep 2022 – Sep 2023
European University of the Atlantic · Santander, Spain

- Published, edited, and managed content for all university partners.
- Maintained and extended custom WordPress themes in PHP.
- Automated processes with Google AppScript and Gmail integration.

Front-end Software Developer May 2021 – May 2022
Just Click Media · Guayaquil, Ecuador

- Tested and debugged one of the company's main custom platforms as part of the QC team.
- Implemented designs and features for multiple web stores using WordPress and Elementor.
- Created and maintained features for the company's e-commerce platform, Publifyer.

High School Professional Intern Feb 2020 – Mar 2020
Just Click Media · Guayaquil, Ecuador

- Learned HTML, CSS, and JavaScript fundamentals by building real projects in a collaborative team.

EDUCATION

High School Diploma
German Humboldt School of Guayaquil, Ecuador
