

Aurelio Ochoa Gomez

SOFTWARE DEVELOPER

Guayaquil, Ecuador · aureliochoagomez@hotmail.com · +593 978 674 056 · linkedin.com/in/aureliochoa · aureliochoa.github.io

PROFILE

Developer with **three years of experience** across front-end, systems administration and cloud infrastructure: sites and features in production, Linux server and database management, and automated testing and deployment with Jenkins, Docker and Google Cloud Platform. I work daily with **AI and agentic workflows** (Claude Code, OpenCode) applied to development and automation. I currently combine freelance web and automation projects with certified drone (UAS) operations in precision agriculture.

TECHNICAL SKILLS

FRONT-END	HTML, CSS, Sass, JavaScript, React, Vue, Angular, Bootstrap
BACK-END & DATA	Node.js, Express, PHP, Laravel, WordPress, MySQL, MongoDB
SYSTEMS & DEVOPS	Linux, Docker, Jenkins, Google Cloud Platform, CI/CD
AI & AGENTS	Claude Code, OpenCode, agentic workflow design, AI-assisted automation
OTHER	Python, Java, Lua, Google Apps Script · UAS operation (DJI Agras T50/T100) · Professional gastronomy

EXPERIENCE

Web & Automation Developer · Freelance 2025 – Present
Mediacor Plus · Remote

- Designed and built the corporate website, [mediacorporplus.com](#).
- Developed mail-server automations delivering subscription updates from their media monitoring services.

Agricultural Drone Pilot May 2024 – Present
Fumigasa · Ecuador

- Plan and fly precision spraying missions with DJI Agras T50 and T100, including field mapping and route planning.
- Maintain and calibrate the UAS and spraying equipment.

Systems Administration Intern Sep 2023 – Feb 2024
European University of the Atlantic · Santander, Spain

- Managed on-site Linux servers and databases.
- Implemented automated testing and deployment with Jenkins, and containerized the team's projects with Docker.
- Built cloud infrastructure and automated deployments on Google Cloud Platform.

Front-end Web Development Intern Sep 2022 – Sep 2023
European University of the Atlantic · Santander, Spain

- Maintained and extended custom WordPress themes in PHP.
- Automated processes with Google Apps Script and Gmail integration.
- Handled content publishing and editing for all university partners.

Front-end Software Developer May 2021 – May 2022
Just Click Media · Guayaquil, Ecuador

- Built and maintained features for Publifyer, the company's e-commerce platform.
- Implemented designs and features for multiple web stores with WordPress and Elementor.
- Tested and debugged one of the company's main platforms within the QA team.
